WHERE TO BUY

Multi Air Flow

Multiple cooling air vents distribute and circulate cool air to every corner of the refrigerator, ensuring that each and every food item is properly cooled.

Moist Balance Crisper™

As moisture from food evaporates and then condenses on the lattice instead of puddling around your food, thus maintaining the right balance of moisture in the box.

Moist Balance Crisper™

Keeps up to 20% More Moisture

Tempered Glass Shelf

Tempered glasses are strong enough to hold your heavy items up to 150kg.

* Based on glass shelves robustness test
